Fox Com IT Solutions

10 April 2008

Dear Glen

Venturefest Yorkshire 2008

I felt it important that I write to you personally to thank you for helping ensure that Venturefest Yorkshire 2008 went so well on February 6th.

You will know by now that in previous years we have experienced a less than satisfactory IT partner in the front reception area.

I am delighted to report that this year the service and equipment supplied by Fox Com was second to none. You supplied everything we asked for and on the day helped dig us out of some panic moments such as unlocking the Audio Visual Contractor's lap top with all of the master PowerPoint files on!! I can't tell you reassuring it was to all of the team to know that support was only a few steps away.

I hope the event proved successful to you and that you are now chasing down a number of opportunities.

I really am delighted with the way that you tackled the brief and would like to thank you most sincerely for making sure that this year the promise lived up to the delivery! I look forward to working with you again on the 2009 event if that is something of interest to you.

Kind regards

Chris Wilson
Venturefest Yorkshire Project Manager
